Hi Marianne,

Thanks for sharing this meeting request. Your plan to use the meeting as an opportunity to tighten coordination with USAID sounds good, and you are correct, we don't currently have bilateral programming with India. Thanks for offering to set up the meeting with OAR. Josh covers India so would appreciate it if you would invite him to the meeting for general awareness. You may also want to invite Glenn since India is a priority country for the "Tiger Team" initiative.

Best,
Brenda

Subject: FW: Follow-up from the WHO Conference: Air pollution and health consultations in DC next Monday-Wed

Hi Brenda,

This is a follow-up to USG engagement with WHO on air pollution and health. I am happy to host the meeting and will coordinate with OAR, unless you prefer to do so. I don't see our interest in this meeting as bilateral cooperation with India, since we don't have programming there as far as I know. Rather, I'd like to use it to try to tighten our cooperation with USAID overall. Let me know your thoughts when you can, thanks.

Marianne

Subject: Follow-up from the WHO Conference: Air pollution and health consultations in DC next Monday-Wed

Dear EPA Colleagues,

Greetings from Delhi! We met at the WHO Air pollution conference in Geneva. My colleague, Julia Kennedy, Deputy Director of the Clean Energy and Environment Office, Kachina Chawla, a senior health advisor at the India/Mission, and myself will be coming to DC next week to consult on USAID priorities for pollution and health programming, and implications in India and the region.

Would you have time to meet with us (or speak, if EPA colleagues are remote) early next week? We are in DC March 10-13, and are currently available on Monday 8:30-9:30 or possibly after 4, and Wed 8:30-9:30.

Let us know if any of those times work. Also, I am sending this email piggy backing on an email list from the WHO/Geneva event, so if there are other colleagues we should include, or perhaps via phone call if they are remote, please do include them.

I am copying USAID colleagues in DC who may join us (including Helen and Lucy, whom you met in Geneva, and Jayne who is formerly from EPA).

Best regards,
Priya
